Standing Reports

1. Board Liaison report.

Request that CC write article for Birds Eye View in The Condor pertaining to harassment of PMCPOA employees by members. Condition is on the rise and we risk losing long time valuable employees.

2. Chair report

The Dog Park. Is the Association responsible for upkeep? Answer: No. The Dog Park has been and currently is the responsibility of the Dog Park Club. Last known president is Mar Preston. Concern about condition revolves around the rapidly prolific spreading of foxtail weeds. Foxtails are extremely harmful to dogs. Whether ingested or stepped on, they will travel inside the dogs body toward vital organs. The result is a very expensive trip to the veterinarian. Foxtails must be eradicated before it is safe for dogs.

3. PMCPOA website progress report: Website Assignee Horst Baldin has resigned. However, has forwarded his last report that the website has full coverage of the Election Package.

4. CCC box issues report

CCC's were received by Chair Wickers and read to the Committee.

6. BIRDEYE'S VIEW (Condor article).

CC agreed to write to The Condor regarding harassment of employees, making clear that the Courts on finding in favor or person harassed. Since the line between harassment and criminal intent is not clearly delineated, most cases will favor the individual harmed.
